Eco-Driving & Green Mobility

Classroom Teaching Slides

Teach it. Discuss it. Practise it.

Today's Learning Goals

Explain green mobility and eco-driving in simple terms.

Identify greener ways to travel.

Recognise five basic eco-driving practices.

Challenge common myths.

Design a greener journey for a real-life situation.

Warm-Up: How Did You Get Here?

Raise your hand or vote for your travel mode today.

Walk

Bicycle

Bus / School Van

Car / Motorcycle

Rail / Other

Discuss: Why do different students use different transport modes?

What Is Green Mobility?

Green mobility is about HOW we choose to move.

Walking and cycling

Public transport

Carpooling and shared journeys

Planning and combining trips

Eco-driving

Cleaner and more efficient vehicles

What Is Eco-Driving?

Eco-driving is about HOW we drive.

Drive smoothly and efficiently.

Anticipate traffic ahead.

Maintain an appropriate, steady speed.

Reduce unnecessary idling.

Look after tyres and vehicle condition.

Myth or Fact?

Choose MYTH or FACT — then explain WHY.

1. Green mobility means everyone needs an EV.
2. Walking can be part of green mobility.
3. A fuel-powered bus cannot be part of green mobility.
4. Eco-driving means driving as slowly as possible.
5. Planning and combining trips can make travel greener.

Myth or Fact? — Answers

1. MYTH — Green mobility is much broader than EVs.
2. FACT — Walking is active mobility.
3. MYTH — Public transport can move many people efficiently.
4. MYTH — Eco-driving means smooth, safe and efficient driving.
5. FACT — Combining trips can reduce unnecessary travel.

Meet the Green Club

Use the storybook to spot decisions, choices and actions.

Ir. Dr. Azman — The Green Mobility Mentor

Hassan — The Curious Explorer

Kogila — The Thoughtful Thinker

Si Na — The Green Action-Taker

Storybook Mission

SPOT IT — Find green mobility and eco-driving practices.

THINK ABOUT IT — What decision did a character make?

CHANGE IT — Could there be another choice?

CONNECT IT — Is the situation similar to your life?

TRY IT — Choose one action you could practise.

Green Journey Challenge

In groups: choose a greener option and justify your decision.

- A. 500 m to a nearby shop with a safe walkway.
- B. Too far to walk to school; a school bus is available.
- C. Four friends going to the same activity in four cars.
- D. City trip with a rail station along the route.
- E. Driving is necessary and no practical public transport is available.

Think Before You Move

1. Can I avoid or combine the trip?
2. Can I walk or cycle safely?
3. Can I share or use public transport?
4. If I must drive, can I eco-drive?
5. Can I choose a cleaner or more efficient vehicle?

3–2–1 Exit Ticket

Write your answers before you leave.

3 things I learned

2 greener mobility choices I can make

1 message I will share with my family

7-Day Green Journey Challenge

Class goal: Collect 100 Green Leaves together.

Walk for a suitable short journey.

Cycle safely.

Use public transport.

Share a journey.

Help combine errands.

Notice good eco-driving.

Think before travelling.

Remember

Small choices. Brighter tomorrows.

Safety and practicality come first.

There is not always one perfect transport choice.

Different families have different transport options.

Small repeated choices can add up.

Every journey is a chance to think greener.
